

**Weekly Report**  
**12/03/2019 – 19/03/2019**

This week I read the updated papers and online articles about data to animation or video for preparing the project that I have to do with Junhua next month.

About my paper, I already revise some comments you let me change it, and I already check grammar by myself and with my purchase grammar checking tool. Then I will send to my colleagues to check.

I added 卢金璇 as a new author, she helped me to extract the data of the year 2018 and helped me to discuss the way to reorganize the paper.
